

## **MAYFAIR**

### **Classic elegance, contemporary refinement**

Past and future come together in the present, bringing contemporary advances to the essential and authentic values of the past. The **MAYFAIR** collection is designed to improve the illumination of private spaces, by integrating traditional elements, reinterpreted through technological progress.

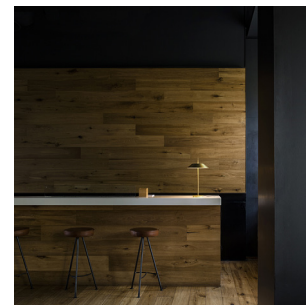

The original inspiration for the fittings is provided by the traditional library and billiards lamps of the 19th Century with their evocative conical shades and brass structure. These traditional fittings have been reinterpreted in a highly contemporary manner featuring innovative materials, refined silhouette and incorporating a highly refined LED light.

The **MAYFAIR** pendant light is available in a single diffuser or multiple diffuser versions, with 3 shades in a radial configuration. The floor lamps and table lamps are characterised by their slender vertical column anchored by a metal disc base. The LED source is contained within an inverted conical insert within the outer diffuser.

The diffuser shades for the collection are available in a wide range of matt and gloss finishes. This colour range is an expression of the contemporary refinement that characterises the collection and includes matt white, graphite and matt gold, polished copper, green and orange combined with gloss black nickel.

#### About Vibia

Founded in 1987, VIBIA is a design-oriented lighting manufacturer based in Barcelona. The company operates in more than 80 countries around the world, including a subsidiary in the United States. VIBIA's mission is to provide the right solution, with a unique range of products that inspires the creative abilities of architects, interior and lighting design professionals.
