

FLAT TEXTIL | CUBIC ERGONOMICS

FLAT TEXTIL is the essential and light version of the original **FLAT** collection designed by Mario Ruiz for **GANDIABLASCO**.

This complimentary proposal of outdoor furniture includes two types of chair, with and without armrests, chaise longue, armchair and rocking chair.

While maintaining the rigorous minimalist design approach and strong architectonic profile, with the **FLAT TEXTIL** collection the silhouette is slightly softened with the emphasis on the water-resistant textile back support and seating.

The ergonomic lines of the various seating options invite relaxation, through the combination of an outdoor furniture system with an indoors standard of comfort for this collection. The technical performance is matched by its aesthetics.

FLAT TEXTIL is manufactured from thermo-lacquered aluminium profiles with a batyline fabric, available in a range of colours to suit any requirements.

About Mario Ruiz

From his studio in Barcelona Ruiz specialises in designing products in diverse sectors; furniture, technology, lighting, office and applied graphics. His work is founded on a solid base of multidisciplinary design that reflects the varied nature of his client list. His work has been recognised with more than 40 international awards worldwide.

About GANDIABLASCO

Founded as a family business in 1941 specialising in the production of blankets. During the mid-80s they began manufacturing carpets. Since 2000 the company has focused exclusively on outdoor furniture products. Their ambitious business strategy was consolidated through rapid expansion to become a world leader in outdoor designer furniture. The company is now international, having opened shops and showrooms in a number of countries worldwide. Their collaborations with renowned designers all over the globe have consolidated their working base in Spain.
