

PIN

Essence & Comfort

Delicacy and subtlety can be discerned from an attitude towards design, in the elegance of a gesture or the nuance of a lighting effect. The Japanese designer Ichiro Iwasaki explores concepts related to continuity and comfort through this lighting collection for Vibia.

"Despite the ongoing diversification of values among people living in the present age, a lot of people still cherish comfort of life as it has always been."

Ichiro Iwasaki.

The **PIN** collection is conceived as a new interpretation on the ambient and task lighting lamp. Functional and minimalist its design is both contemporary and classical, defined by its delicate counterpoint between its slender silhouette, its resolved curves, robust circular base and exquisite use of LED technology.

The deliberately neutral approach makes the **PIN** collection easy to integrate within any ambience whether it be traditional or contemporary. The collection is available in floor, wall and table top version. Finishes include matt white, black, cream and green.

About Vibia

Founded in 1987, VIBIA is a design-oriented lighting manufacturer based in Barcelona. The company operates in more than 80 countries around the world, including a subsidiary in the United States. VIBIA's mission is to provide the right solution, with a unique range of products that inspires the creative abilities of architects, interior and lighting design professionals.
